Doing What You Like Is Freedom. Liking What You Do Is Happiness

The history of Takler is about **freedom**, because our company has never been afraid of **discovering**: new technologies, new solutions, new materials, new ways of connecting theory and practice. Mr Lorenzo Lorusso, together with his sons and staff, has always had one single final target: the world. Free people are those who are not afraid to try, experiment, dare. People who have the **courage** to take risks and bring innovation in each and every field.

Takler is a center of production free to **try new dedicated solutions** for constantly evolving needs.

Takler is a technical department free to **innovate** and following its own knowledge and **creativity**.

Takler is a breeding ground of design, free to express its own style while searching for new **shapes** and new projects that combine both functionality and sense of esthetics.

Takler is a commercial division always **on the move**, close to its consolidated customers, attentive to potential customers needs as well, because it has a direct experience of the markets and their complexity and is able to follow their dynamism and **current liquidity**.

Takler was born in the industrial area of Matera, as an automotive manufacturing company specialized in accessories for industrial and commercial vehicles, always searching for new solutions for body-builders and fitters. The **enthusiasm** and **curiosity** are distinguishing features of all the working staff, which has led the company to have its production in **Italy**, a logistic point in **Germany** and a branch in the **United States**.

Takler can count on more than 2000 customers all over the continents, a catalogue with **6 production sections, 400 part numbers** and over **1900 customized solutions**.

Takler is now **expanding** with a new production line dedicated to **aluminum** extrusion, the material of the **future**: ecofriendly, versatile, resistant, light.

The solutions that provide **safety** and prove themselves as always reliable are projects that set the user free, that make one's **job** a moment of growth, capable to satisfy the needs of those whose main job is **travelling**.

If freedom stands for safety, safety means freedom.

We do it, in the Takler way.

Tun was du liebst, ist Freiheit. Zu lieben was du tust ist Glück.

Unsere Geschichte Takler ist eine Geschichte der **Freiheit**, denn unser Unternehmen hatte nie Angst zu **entdecken**: neue Technologien, neue Lösungen, neue Materialien, neue Wege der Verbindung von Visionen und Operationen.

Lorenzo Lorusso hatte zusammen mit seinen Söhnen und seinen Mitarbeitern immer ein einziges Referenzgebiet: die **Welt**. Freie Menschen sind diejenigen, die keine Angst haben zu versuchen, zu experimentieren, zu wagen, es sind Menschen, die es wagen, in allen Bereichen zu riskieren und Innovationen zu bringen.

Takler ist eine freie Produktion die **neue Lösungen** ausprobiert und sich ständigen Änderungen Anpasst. Die Innovation unserer technischen Abteilung wird wie an einen Faden geleitet, unser Wissen und unsere eigene Kreativität führen dazu das unser eigener Stil in der Forschung zum Vollen Ausdruck gebracht wird um **neue Formen** und neue ästhetische und funktionale Projekte forschen.

Die Verkaufsabteilung immer auf **Reisen**, um unseren Kunden Aufmerksamkeit beizustehen mit Rat und Tat. Um auf die Bedürfnisse der potenziellen Märkte, weil Sie in ihrer Komplexität leben und in der Lage, die Dynamik und die **zeitgenössische Liquidität** zu folgen.

Takler wurde im Industriegebiet von Matera geboren, einer metallverarbeitenden Produktionsfirma, die sich auf Zubehör für Industrie- und Nutzfahrzeuge spezialisiert hat und immer auf der Suche nach neuen Lösungen für die Bedürfnisse von Herstellern und Monteuren ist. Der **Enthusiasmus und die Neugier** sind die Markenzeichen der gesamten Gruppe, des Unternehmens in **Italien** geführt hat. Das Logistikzentrum in **Deutschland** und ein operatives Büro in den **Vereinigten Staaten (USA)**. Takler hat mehr als 2.000 Kunden auf allen Kontinenten, einen Katalog mit **6 Produktkategorien, 400 Referenzen** und mehr als **1900 kundenspezifische Lösungen**. Takler **wächst** heute mit einer neuen Produktionslinie für die Extrusion von Aluminium (PRESSWERK), dem Werkstoff der Zukunft: umweltfreundlich, vielseitig, langlebig, leicht.

Unsere Lösungen, die Sicherheit geben und immer zuverlässig sind, sind Projekte, die diejenigen frei machen, die sie nutzen, die die Arbeit zu einem Moment des Wachstums machen und die alle Bedürfnisse derjenigen erfüllen können, die über die **Reise als Arbeit** und über die **Arbeit als Reise** denken. Wenn Freiheit Sicherheit bedeutet, bedeutet Sicherheit Freiheit.

We do it, in the Takler way.

IT

Fare ciò che ami è libertà. Amare ciò che fai è felicità.

La storia di Takler è una storia di **libertà** perché la nostra azienda non ha mai avuto paura di **scoprire**: nuove tecnologie, nuove soluzioni, nuovi materiali, nuovi modi di connettere visioni e operatività.

Lorenzo Lorusso, insieme ai suoi figli e ai suoi collaboratori, ha avuto sempre un unico territorio di riferimento: il **mondo**.

Le persone libere sono quelle che non hanno paura di provare, di sperimentare, di osare. Sono persone che hanno il **coraggio** di rischiare e portare innovazione in ogni campo.

Takler è un centro di produzione libero di provare **nuove soluzioni** dedicate ad esigenze in costante evoluzione, è un ufficio tecnico libero di **innovare** e di seguire il filo delle proprie conoscenze e della propria **creatività**, una fucina di design libera di esprimere il proprio stile nella ricerca di **nuove forme** e nuovi progetti estetico-funzionali, una divisione commerciale sempre in viaggio, vicina ai clienti consolidati e attenta alle esigenze di quelli potenziali perché vive i mercati nella loro complessità e riesce a seguirne il dinamismo e la **liquidità contemporanea**.

Takler nasce nella zona industriale di Matera, azienda metalmeccanica di produzione dedicata agli accessori per veicoli industriali e commerciali, sempre alla ricerca di nuove soluzioni per le necessità dei costruttori e degli allestitori.

L'**entusiasmo** e la **curiosità** sono i tratti distintivi di tutto il gruppo di lavoro che ha portato l'azienda ad avere sede di produzione in Italia, un centro logistico in **Germania** e una sede operativa negli **Stati Uniti**. Takler conta più di **2000 clienti** distribuiti in tutti i continenti, un catalogo con **6 categorie di prodotti**, **1100 referenze** e più di **1900 soluzioni** realizzate su misura. Takler oggi **cregge** con una nuova linea di produzione dedicata all'estrusione dell'**alluminio**, il materiale del **futuro**: ecosostenibile, versatile, resistente, leggero.

Le soluzioni che danno **sicurezza** e si rivelano sempre affidabili sono progetti che rendono libero chi li utilizza, che rendono il lavoro un momento di crescita e che riescono a soddisfare tutte le esigenze di chi pensa al **viaggio** come ad un **lavoro** e al **lavoro** come ad un **viaggio**.

Se libertà vuol dire sicurezza sicurezza significa libertà.

We do it, in the Takler way.

FR

Liberté c'est faire ce que tu aimes. Aimer ce que tu fais c'est de la joie.

L'histoire de Takler est une histoire de **liberté** car notre usine n'a jamais eu peur de **découvrir**: nouvelles technologies, nouvelles solutions,

nouveaux matériaux, nouvelles façons de connecter visions et exploitations.

M. Lorenzo Lorusso, avec ses fils et avec ses collaborateurs a toujours eu un seul territoire de repère : le **monde**.

Les personnes libres ce sont celles qui n'ont pas peur d'essayer, d'expérimenter, d'oser, ce sont des personnes qui ont le **courage** de risquer et d'apporter des innovations dans chaque domaine.

Takler est un centre de production libre de tester de **nouvelles solutions** dédiées à des exigences en constante évolution, c'est un bureau technique libre d'**innover** et de suivre le fil de ses propres connaissances et de sa propre **créativité**, une forge de design libre d'exprimer son propre style à la recherche de **nouvelles formes** et de nouveaux projets esthétique-fonctionnels, des commerciaux toujours en **déplacement**, proche des clients consolidés et attentive aux exigences de potentiels clients car elle vit les marchés dans la leur complexité, et elle réussit à en suivre le dynamisme et la **liquidité contemporaine**.

Takler se situe dans la zone industrielle de Matera, usine mécanique de production dédiée aux accessoires pour les véhicules industriels et commerciaux, toujours à la recherche de nouvelles solutions qui savent répondre aux nécessités des constructeurs et des aménageurs. L'**enthousiasme** et la **curiosité** sont les aspects qui distinguent tout le groupe de travail et qui ont conduit l'usine à réaliser un centre de production en **Italie**, une plateforme logistique en **Allemagne** et un siège opérationnel aux **Etats-Unis**. Takler compte plus de **2000 clients** éparpillés dans tous les continents, un catalogue avec **6 catégories de produits**, **400 références** et plus de **1900 solutions** réalisées sur mesure. Takler **s'agrandit** d'une nouvelle ligne de production **dédiée** à l'extrusion de l'**aluminium**, le matériel de l'**avenir** : écologique, polyvalent, résistant, léger.

Les solutions qui assurent la **sécurité** et qui se montrent toujours fiables ce sont des projets qui rendent libres celui qui les utilise, qui rendent le travail un moment de croissance et qui réussissent à satisfaire toutes les exigences de celui qui pense au **voyage** comme un **travail** et au **travail** comme un **voyage**.

Si liberté veut dire sécurité, sécurité veut dire liberté.

We do it, in the Takler way.

ES Hacer lo que tú quieras es libertad... Que te guste lo que haces es felicidad.

La historia de Takler habla de **libertad**, porqué nuestra empresa nunca ha parado de **descubrir**: Nuevas tecnologías, Nuevas soluciones, nuevos materiales, nuevos modos de unir la práctica a la teoría.

Sr. Lorenzo Lorusso, junto a sus hijos y sus empleados, siempre ha tenido un objetivo final único: el mundo.

La gente libre no tiene miedo a: intentar, experimentar, osar. La gente que tiene **coraje** de arriesgarse y llevar Innovación en cada cual campo.

Takler es un centro de producción libre que prueba **nuevas soluciones dedicadas** por exigencias en continua evolución.

Takler es una oficina técnica libre de **innovar** y seguir sus conocimientos y **creatividad**.

Takler es un campo fértil por el design, libre de expresar su propio estilo y buscando al mismo tiempo nuevas **formas** y proyectos que puedan combinar funcionalidad y senso estético.

Takler es una división comercial **en continuo movimiento**, cerca de sus clientes históricos, atenta a los potenciales nuevos, ya que tiene experiencia directa en la complejidad de los mercados y puede seguir su dinamismo y **liquidez actual**.

Takler nace en la zona industrial de Matera, como empresa especializada en la producción de accesorios por vehículos industriales y comerciales, siempre a la búsqueda de nuevas soluciones por los primeros equipos y constructores. El **entusiasmo** y **curiosidad** son rasgos que destacan nuestros empleados, por lo cual ha sido necesario tener una planta de producción en Italia, un centro logístico en **Alemania** y una filial en los **Estados Unidos**.

Takler puede contar con más de 2000 clientes en todos los continentes, un catálogo con **6 secciones de producción**, **400 referencias** y más de **1900 soluciones personalizadas**.

Takler está **ampliándose** con una nueva línea de producción dedicada a la extrusión de **aluminio**, el material del **futuro**: ecológico, versátil, resistente, ligero.

Las soluciones que garantizan **seguridad** y que siempre son fiables son proyectos que emancipan al usuario, que convierten el trabajo en un momento de crecimiento, capaz de satisfacer las exigencias de aquellos cuya tarea principal de **trabajo es viajar**.

Si la libertad significa seguridad, la seguridad significa libertad.

We do it, in the Takler way.

TECH&RESEARCH

EN We produce accessories for industrial and commercial vehicles that comply with the strictest safety and conformity rules, in line with the contemporary style of industrial design.

Our production system is certified under **ISO/TS 16949**, we make products that satisfy European and Extra-European standards: we are a **reliable partner**, able to meet our customers' need with **focused actions**.

We are **flexible** as the requests of the contemporary markets, we are **visionary** so we anticipate the needs of our customers, we are **competitive** so we can follow all realities that need advising and customized projects

we operate on consolidated and developing markets supported by three branches between Europe and America.

We use innovative materials, machines working on **automatic production cycle**, advanced project & analysis software; our operators can count on **high professional education** and constant upgrading programs.

We are constantly committed to "**total quality**": all the available skills contribute to every stage of the production cycle, along a path that combines both high quality and continuous projecting.

DE Wir stellen Zubehör für Industrie / Nutzfahrzeuge her, Industrieunternehmen, die strengste Compliance- und Sicherheitsstandards erfüllen und dem Stil folgen und dem zeitgemäßen Stil des Industriedesigns folgen. Unser Produktionssystem ist nach **ISO / TS 16949 zertifiziert**, wir fertigen Produkte, die den Anforderungen der europäischen und nicht europäischen Qualitätsstandards gerecht zu werden. Wir sind ein **zuverlässiger Partner** in der Lage ist, alle Bedürfnisse unserer Kunden gerecht zu werden mit **personalisierten Interventionen**.

Wir sind **flexibel**, wie die Anforderungen des heutigen Marktes, sind **Visionäre** und antizipieren die Bedürfnisse unserer Gesprächspartner. Wir sind wettbewerbsfähig und können alle Realitäten folgen, die Beratung und maßgeschneiderte Projekte brauchen, die in den etablierten Märkten vorhanden sind und nicht, durch drei Büros verteilt zwischen Europa und Amerika.

Wir verwenden innovative Materialien, **automatisierte Produktionszyklusmaschinen**, fortschrittliche Design- und Analyseprogramme, unsere Mitarbeiter und Designer **hoch professionell Ausgebildet** und kontinuierliche im Weiterbildungsformation.

Wir arbeiten ständig an der Realisierung von "**totaler Qualität**": alle Fähigkeiten, die im Unternehmen vorhanden sind, sind in allen Phasen des Produktionszyklus auf einem Weg vertreten, bei dem hohe Qualität mit kontinuierlichem Design kombiniert wird.

IT Produciamo accessori per veicoli commerciali ed industriali che soddisfano le norme di conformità e sicurezza più stringenti e seguono lo stile contemporaneo del design industriale.

Il nostro sistema di produzione è certificato **ISO/TS 16949**, realizziamo prodotti che soddisfano le richieste degli standard di qualità europei ed extraeuropei: siamo un **partner affidabile** che riesce a soddisfare tutte le esigenze dei nostri clienti con **interventi personalizzati**.

Siamo **flessibili**, come le richieste dei mercati contemporanei, siamo **visionari** e anticipiamo le necessità dei nostri interlocutori, siamo **competitivi** e riusciamo a seguire tutte le realtà che necessitano di consulenza e di progetti personalizzati, siamo presenti sui mercati consolidati e su quelli in crescita grazie a tre sedi distribuite tra Europa e America.

Utilizziamo materiali innovativi, macchinari a **ciclo produttivo automatizzato**, programmi di progettazione e analisi avanzati, i nostri operatori e progettisti contano su un'**alta formazione professionale** e programmi di aggiornamento continui.

Siamo costantemente impegnati nella realizzazione della '**qualità totale**': tutte le competenze presenti in azienda partecipano a tutte le fasi del ciclo produttivo in un percorso in cui l'alta qualità si affianca alla progettazione continua.

FR Nous réalisons des accessoires pour les véhicules commerciaux et industriels qui répondent aux normes de conformité et de sécurité les plus strictes, et qui suivent le style contemporain du design industriel.

Notre système de production est certifié **ISO/TS 16949**, nous réalisons des produits qui répondent aux demandes des standards de qualité européen et extra européen: nous sommes un **fiable partenaire** qui réussit à satisfaire toutes les exigences de nos clients par des **interventions personnalisées**.

Nous sommes **flexibles**, comme les demandes des marchés contemporains, nous sommes des **visionnaires** et nous anticipons les nécessités de nos interlocuteurs, nous sommes **compétitifs** et nous réussissons à suivre toutes les réalités qui nécessitent de consultation et de projets personnalisés, nous sommes présents sur les marchés consolidés et sur ceux en phase d'exploitation grâce aux trois sièges implantés entre l'Europe et l'Amérique.

Nous utilisons des matériaux innovants, des machines avec des **cycles de production automatisée**, programme de conception et d'analyse avancés, nos opérateurs et nos designers possèdent une remarquable **formation** professionnelle et ils suivent des programmes de mise à jour en continuation.

Nous sommes toujours engagés dans l'aboutissement à la « **haute qualité** » : toutes les compétences présentes en usine participent à toutes les phases du cycle de production long un parcours où l'haute qualité va de pair avec la conception continue.

ES producimos accesorios por vehículos comerciales e industriales que cumplen con las normativas más estrictas en materia de seguridad, en línea con el estilo contemporaneo del diseño industrial.

Nuestro sistema de producción está certificado según la **ISO/TS 16949**, fabricamos productos que cumplen con los estándares Europeos y Extra-Europeos: somos un **partner fiable**, capable de satisfacer las exigencias de los clientes con **acciones miradas**.

Somos **flexibles** como los mercados contemporaneos, somos **visionarios** entonces anticipamos las exigencias de nuestros clientes

Somos **competitivos** entonces podemos seguir todas las realidades que necesiten consultas y proyectos personalizados.

Operamos en mercados consolidados y aun en desarrollo gracias al apoyo de tres filiales entre Europa y América.

Utilizamos materiales inovativos, maquinarias en **ciclo de producción automático**, software de proyectación y análisis avanzada, nuestros operadores pueden contar con una **alta formación profesional** siempre al paso con las mejoras

Estamos comprometidos constantemente con la "**calidad total**": todas las habilidades contribuyen en cada etapa del ciclo de producción, en un camino que une la alta calidad a la proyectación continua.

in compliance with
the regulation UNI EN 131

EN Our goal is to offer the world market a **range of completely customizable ladders**, that make the vehicles comfortable and safe. It is possible to choose among pullout, rotating, suspended, foldable and sliding ladders, each of them specifically conceived for different situations of loading and unloading.

DE Unser Ziel ist es, Weltweit eine **komplett Personalisiert Leitern anzubieten**, die die Fahrzeuge komfortabel und sicher machen soll. Es ist möglich, zwischen Ausziehbaren, Drehbaren, Klappbaren, Freistehenden Leitern zu wählen und zu Personalisieren. Jede, für bestimmte Be- und Entladungsbedürfnisse.

IT Il nostro obiettivo è offrire al mercato mondiale una **gamma totalmente personalizzabile** di scalette d'accesso che rendano i mezzi comodi e sicuri. È possibile scegliere tra scalette estraibili, girevoli, ribaltabili, ripiegabili, sospese, ognuna dedicata a particolari esigenze di carico e scarico.

FR Notre objectif est celui d'offrir au marché mondial une **gamme complètement personnalisable** de marches pied d'accès qui rendent les moyens commode et surs. Nous proposons une vaste gamme au choix parmi ceux extractibles, pivotants, rabattables, repliables, suspendus, chacun adaptés à des particulières exigences de chargement ou de déchargement.

ES Nuestro objetivo es ofrecer al Mercado mundial **una gama de escaleras completamente personalizables**, con la cual el vehículo sea cómodo y seguro. Es posible elegir entre otros modelos, el extraíble, rotatorio, suspendido, volcable, escamotable, cada uno de éstos concebidos precisamente por las diferentes situaciones de carga y descarga.

Takler rear underrun protection device virtually examined in accordance with ECE of the R58.03

Setup of virtual test

Performance of delivered rear underrun protection device (RUPD) has been virtually tested according to technical standards E/ECE/324 of the Regulation 58.03. The regulation prescribes a sequential loading on five points (see Fig1). Confirmed loading sequence is P2, P4, P1, P5 and P3. Appropriate load level in longitudinal direction that the structure needs to carry is following P2 = 180kN, P4 = 180kN, P1 = 100kN, P5 = 100kN and P3 = 100kN. Maximum displacement of P1-P5 required by the technical standard is 400mm. The regulation demands the position of points P1-P5 as described in figure 1.

Figure 1: requirements for position of points P1-P5

EN The catalogue has been enriched with **flat tracks** along with traditional ones, to satisfy new professional needs that require full capacity and minimum occupied space. Our tracks are produced in aluminum or steel and guarantee high reliability during demanding operations of loading and transport.

DE Neben den traditionellen Kombi Ankerschienen (Hutprofil) wurde der Katalog mit der **Flachprofilen erweitert**, um die neuen professionellen Anforderungen zu erfüllen, die maximale Kapazität und minimale Abmessungen erfordern. Unsere Ausführungen besteht aus Aluminium oder Stahl und garantieren hohe Zuverlässigkeit bei anspruchsvollen Lade- und Transportsicherung.

IT Accanto alle guide ferma carico tradizionali il catalogo si è arricchito di **guide piatte** per soddisfare le nuove esigenze professionali che richiedono massima capienza e minimi ingombri. Le nostre guide sono prodotte in alluminio o acciaio e garantiscono grande affidabilità durante prestazioni impegnative di carico e trasporto.

FR Avec les rails d'arrimage traditionnels notre catalogue s'est enrichi de **rails d'arrimage plats** afin de satisfaire les nouvelles exigences professionnelles qui demandent la possibilité d'exploiter le maximum du volume à l'intérieur du caisson avec un minimum d'encombrement. Nos rails sont réalisés en aluminium ou en acier, et ils assurent un haut niveau de fiabilité durant d'importantes prestations de chargement et de déchargement ainsi durant le transport.

ES

El catálogo se ha ampliado con los **rails planos** como complement de los tradicionales, para satisfacer las nuevas exigencias profesionales que requieren la máxima capacidad y el mínimo espacio ocupado. Nuestros rails se producen en aluminio o acero y son garantía de alta fiabilidad durante las delicadas operaciones de carga y transporte.
